The Economic and Monetary Union (EMU) is an umbrella term for the group of policies aimed at converging the economies of member states of the European Union at three stages. The policies cover the 19 eurozone states, as well as non-euro European Union states.. Each stage of the EMU consists of progressively closer economic integration. Only once a state participates in the third stage it is ...

Economic and Monetary Union of the European Union - Wikipedia

The European Monetary System (EMS) was initiated in 1979, by an arrangement of the Member States of the European Economic Community (EEC) to foster closer monetary policy co-operation between the Central Banks to manage intra-community exchange rates and finance exchange market interventions. The EMS was setup to adjust exchange rate, (both the nominal and the real exchange rate) in order to ...

European Monetary System - Wikipedia

The European Currency Unit (ƒ or ECU) was a basket of the currencies of the European Community member states, used as the unit of account of the European Community before being replaced by the euro on 1 January 1999, at parity. The ECU itself replaced the European Unit of Account, also at parity, on 13 March 1979. The European Exchange Rate Mechanism attempted to minimize fluctuations between ...

European Currency Unit - Wikipedia

Between 1993 and 2009, the European Union (EU) legally comprised three pillars. This structure was introduced with the Treaty of Maastricht on 1 November 1993, and was eventually abandoned on 1 December 2009 upon the entry into force of the Treaty of Lisbon, when the EU obtained a consolidated legal personality.. The European Communities pillar handled economic, social and environmental policies.
