3.1, Place Value, Number and Number Sense - Math Curriculum
Depending on its location, a number can mean hundreds, even millions, or just tenths of one. This is the magic of place value. When alone, each number (or digit) is in the ones place. That means its value is simply the digit itself. For example, 9 stands for 9 ones, and 4 stands for 4 ones. The ones place is pretty straightforward.

Basic Operations: Place Value Study Guide | Shmoop
Students can fold away each tab to reveal the place value name. Great for math journal entries or as a study guide. Print, highlight one number from each line, fold in half, cut on lines, and lift tab to write the place value word.
